

CLOVERLEAF COLD STORAGE

Farmers Produce custom processing & packaging

December 18, 2010

To whom it may concern;

This is a reference letter for Nohava Construction which is a frequently used contractor by Cloverleaf Cold Stg. Co.

Over the past couple of years we have contracted Nohava Construction from Lemars, Iowa to replace many of our roofs at several of our facilities. In some cases they have done complete tear offs, or in some cases, just membrane replacement with added insulation. They have done work for us in Iowa, Missouri, Minnesota, & Ohio. To date they have installed in excess of 480,000 sq. ft. of new roofing for us. All roofs that they have replaced have become maintenance free for us. This is due in part to the fact that the owner is always on the job site to insure we get the quality workmanship we have come to expect from them. They work very well with other contractors on the job sites and are always accommodating to others. Because of always impending weather concerns, they adapt, and work extra long days and / or weekends if needed to stay on schedule without additional cost to us.

Our intentions are to continue using this contractor as long as they continue to stay competitive with the rest of the industry. I would recommend Nohava construction to anyone seeking roof repairs and / or replacements.

Sincerely,

Nick J. Greuniesen
